The Hot Air Page returns after a brief interruption with this, our third SIN Sale. Included in our offerings are exceptional collections of Netherlands and Spanish coins. We hope our return to the West Coast provides us the opportunity to meet many of our old friends, consignors, and mail bidders.

Since this page provides us space to communicate with all of our bidders, we have a few suggestions and comments to pass along. The first suggestion regards the Terms of Sale. New bidders should always carefully read the Terms of Sale for each auction house. They do vary. Regular bidders should scan the Terms for changes. Experience and circumstances do prompt us to make changes. Several sales ago, we set a \$15 minimum bid on lots. If a lot of lesser value than \$15 appears in the sale, it is due to an error on our part and will be returned to the consignor. It is not profitable to either the consignor or us to list low valued lots. We have made a few additional changes which do not appear in the Terms of Sale for this catalog (but will henceforth) that will be observed. In the past, phone bids have been accepted at our office until two hours prior to a floor session. Beginning with this sale, no bids will be accepted at our office after 12 noon Eastern Standard Time on Saturday. Any Saturday afternoon bids will have to be made directly to the auction location. The other change commencing with this sale is that bids will be recorded in even Dollar amounts. Odd cents will be reduced to the nearest Dollar before entering the bids. Our second group of suggestions pertain to mail delivery. Some of you received your last catalog a bit late. We do not send catalogs by First Class Mail except to subscribers and highly successful bidders. All others are sent via Bulk Mail four weeks prior to the sale date (check your catalog to see how it was sent). Since our subscription rates are moderate and include the prices realized after the sale, we suggest you subscribe if you want guaranteed prompt delivery. To our Canadian bidders, one further comment. Please bid early as mail from Canada, especially the Prairie Provinces frequently takes 7 to 10 days to reach us.

Our next sale will be in May in conjunction with the Michigan State Numismatic Society's Spring Show which is being held in Lansing this year. We are accepting consignments for this sale until March 20th. This sale as well as the current one include major consignments from Collector's Research of Montreal. The Michigan State sale will be a departure from our norm in several respects. Basically we will be offering large quantities of bulk lots including dealer/investor lots as well as runs of all different dates and types from one country in a lot. These will be somewhat in the style of Glendining lots which may give an advantage to floor bidders. Due to the convenient location for us, we will be offering many bulk lots of coins and literature.

To round out 1979, we plan auctions in September and November. The September auction is the INS Convention in Washington D.C. Consignments for this sale should be in our hands by early June at the latest. We will be emphasizing world rarities and will be quite selective in material accepted for this sale. We do have a museum quality collection of Ancient coins committed for this sale along with a specialized collection of Olympic coins and medals from all periods. We are expecting choice European, Chinese, and Mexican coins for this sale. Our November sale is with the Annual Michigan State Numismatic Society's Fall Show in Dearborn. I will be attending the CICF in March, and Torex and Central States in April to pick up consignments for these sales. As I will not have a bourse table at these shows, I suggest arrangements be made in advance if you want me to meet you.

Finally, a few comments about this current catalog. In addition to my wife and me, we regularly employ several other catalogers. Due to several unusual circumstances (including the arrival of our third son), we have been assisted by a larger number of specialists and generalists than usual in preparing this catalog. They include Marie Johnson, Ingrid O'Neil, Carl Berkowitz, Ivan Schuster, Karl Stephens, Paul Rynearson, Andy Singer, and Stanley Clute. While I personally review the grading and descriptions of every lot that I have not cataloged myself, some variations in cataloging style exist. I hope this variation does not inconvenience you. We will make every effort to maintain as much consistency as possible in future sales.
